This course examines how capital structure, bankruptcy, security issuance, payout policy, corporate governance and executive compensation can affect the value of firms. While Introduction to Finance II focused on bankruptcy costs and taxes as the primary determinants, we will now explore how agency problems and information asymmetries affect corporate financial policies.

Literatur:

Organisatorisches:
MA: 6 SP, Modul: Vertiefungsgebiet Corporate Finance oder Corporate Finance Courses
Diplom: 4 KP, BBWL oder Wahlpflichtfach Konzernmanagement/Corporate Finance

Prüfung:
Klausur (60 min)

There will be a 60 minute exam at the end of this course

A rough overview of the course’s contents and the recommended literature

This is a Master course (MA) and is worth 6 SP = 6 ECTS. The course can belong to the modules “Corporate Finance” or “Corporate Finance Courses”. You may ignore this if you are an exchange student!
