

School of Business and Economics

Postdoctoral research fellow ad interim until January 23, 2011 prolongation might be possible / monthly salary equivalent to BAT II a-O AnwTV HU / third party funding

Job description:

The postdoctoral research fellow will work on the project "Experimental studies on entrepreneurial decision making" that is part of the DFG-funded research group "Structural change in the agricultural sector". He/She will plan and conduct laboratory experiments on disinvestment choices of farmers and other entrepreneurs as well as auction experiments on the reallocation of land plots.

Profile of Candidate Requirements:

Ph.D. in economics, agricultural economics, business, or psychology; ability or willingness to learn how to design and conduct computer-based decision experiments; ability to work independently; knowledge of behavioral game theory, auction theory, and/or real options theory is considered an advantage.

Applications from qualified women are encouraged. Equal qualifications provided, preferences will be given to disabled candidates.

Applications should be sent until February 12, 2010 by referring to code number **DR/009/10** to the Humboldt-Universität zu Berlin, School of Business and Economics, Prof. Dr. Schade, Unter den Linden 6, 10099 Berlin. E-mail application to: schade@wiwi.hu-berlin.de. It is not possible for us to return these documents, so applicants should send copies only.
